

North Andover Public Schools, North Andover, MA

Transportation Eligibility

Instructions and Definitions

North Andover School Department

Purpose:

This document defines High School, Middle School and St. Michael’s School transportation eligibility. School assignment and transportation of public school students in grades K - 5 is defined in the ‘Elementary School Attendance Areas & Transportation Eligibility Table’.

Transportation eligibility is based upon the location of the legal residence of the student’s parent or legal guardian and is available to the following students:

- Regular education students attending a public school in grades K – 6 who live more than two miles from school
- Special education students, for whom transportation on conventional buses is specified in the student’s Individual Education Plan
- Regular education students attending a public school in grades K – 6 who live less than two miles and more than one half mile from school and subscribe to the K - 6 paid busing program.
- Regular education students attending a public school in grades 7 – 12 who live more than one half mile from school and subscribe to the 7 - 12 paid busing program.
- Students, who attend St. Michael’s School in grades K - 6, reside in North Andover and live two miles or more from school may receive town-funded transportation by application through the North Andover School Department Transportation Office at 43 High Street. Proof of residency is required.*
- Students who attend St. Michael’s School in grades 7 & 8 and reside in North Andover and live more than one half mile from school may subscribe to the paid busing program through the North Andover School Department, Transportation Office at 43 High Street. Proof of residency is required.*
- All students attending St. Michael’s School and wish to ride a school bus, must submit a Transportation Request Form to the Transportation Office, NAPS, 43 High Street, North Andover, MA 01845 no later than July 10, 2009, with proof of residency.*

The Superintendent may approve exceptions to the eligibility defined herein.

* Proof of residency documents include: telephone, water, electric, and tax bills or for new residence, a copy of your purchase/sale agreement. Account numbers and dollar amounts may be blacked out.

Description/ Definitions:

This table defines the address ranges that are eligible for transportation corresponding to each school. The document also identifies the public elementary school serving a specific residence address. The document is periodically revised to reflect new construction and field surveys that improve the accuracy of the content.

The table is made up of columns and rows like a crossword puzzle. Cells are the ‘boxes’ at the intersection of each column and row.

Street names are located in the ‘STREET NAME’ column. School names and their grade configurations are shown in the column headings to the right of the ‘STREET NAME’ column. Rows are arranged in alphabetical sequence by street name.

Streets highlighted in green are listed more than once, i.e., occupy two or more rows. Numbers to the right of the street name define the lowest and highest house number on the street for which the information in the rest of row applies. In a few cases the words ‘odd’ or ‘even’ appear to the right of the house numbers. This means that the information in the rest of the row only applies to the odd or even numbered addresses within the range shown. ‘X’ marks Rows changed since the previous revision of the document in the left-most column named ‘NEW’.

Cells either contain text, numbers or are blocked out.

North Andover Public Schools, North Andover, MA

Transportation Eligibility

- **E** **Eligible** for funded transportation.
- **N** **Not eligible** for funded transportation. May participate in a paid busing program
- **PX** Reside within ½ mile **proximity** to school. Not eligible for funded transportation. May not participate in a paid busing program.
- **405+** House numbers **equal to or greater** than 405 and 449 are eligible.¹
- **11-56** House numbers **between** 86 and 440 inclusive are NOT eligible and may not participate in a paid busing program.²

Blocked cells indicate that the school or program in the column heading is not available to residents of the street or street - address range combination that applies to the row.

How to Use the Table:

1. **Find the street name in column 1.** Check that street *type* (Rd., Ln., St.) is correct. Some names are used more than once with different *types*, e.g., 'Elm Court' and 'Elm Street'. If the street name is not present, verify that residence is within North Andover and notify Pam Zengilowski, Transportation Administrator at 978-794-1503 x 282.
2. **Look across the row and locate the cell in the column headed by the school that the student attends.** Note the cell contents and interpret using the examples in the section above.

¹ See 'ANDOVER ST for St. Michael's School grades Kindergarten and 1 - 6

² See 'BAY STATE RD 11 - 56 for Middle School grades 6 - 8
